Dear

**Local Development Framework – Land Allocations Issues and Options paper
Acknowledgement of receipt of representations**

You may remember that you made representations to the Land Allocations Issues and Options consultation document earlier in the year. As you will appreciate it has taken some time to log all of the representations which we received onto our database but this has now been completed. A copy of your representation(s) is enclosed – if there are any inaccuracies in the text please let us know. However, this is not an opportunity to make additions to your comments. Please note that if you made your comments online, your name and your comments will appear on this schedule exactly as you entered it into the online consultation software.

The comments will all be considered as we prepare the Preferred Options version of the Land Allocations Development Plan Document. It is anticipated that the this will be subject to further consultation in 2009.

Yours sincerely

Senior Planning Officer
